

DEVELOPING SIGMAFINE SKILLS

We believe that training is the single most important activity to ensure the success of a Sigmafine deployment and the broad and rapid adoption of this technology.

In order to deliver its full value, training must also address the business context and the organization's challenges.

For this reason, we offer both public and private training sessions designed according to participants' organizational roles and proficiency levels.

Private training sessions can be coupled with customer and project-specific activities to deliver a personalized training program.

Training Locations

Milan, Italy

OBJECTIVE

To learn how to use the Sigmafine application called IMM (Intelligent Movement Management) for tracking material movements, and monitoring inventories and attributes (qualities, properties, etc.)

TARGET AUDIENCE

Planning and scheduling staff responsible for tracking, analyzing and reporting inventories, shipments and receipts at their sites in order to improve material movement operations

OUTLINE

During this class you will learn about:

- Using IMM to declare, modify and change the status of material movements throughout their life cycles
- Defining routing paths for material movements
- Calculating reconciled material movement quantities using the transfer calculation extension
- Using IMM to manage inventories, change their status and attributes, and retrieve tank details and trends
- Using the tank monitoring extension to verify the consistency status of material inventories and movements
- Configuring analyzers and using the tank qualities extension to estimate material qualities in a tank
- Configuring security policies for IMM users
- Using the recalculate function of IMM to rerun previous cases

PREREQUISITES

- An understanding of your company's business requirements in order to apply what you learn from this course to the Sigmafine data reconciliation mandate at your site
- Using Sigmafine class (SF-SERV-TR-USE – 2 Days)

FEE

- Private – \$ 6,000 for a class of up to 8 students
- Public – \$ 1,200 per student

DELIVERABLES

- Course notes and access to a training system
- Training Certificate

REMARKS

This class is also available to Sigmafine superusers who act as in-house trainers. Ask us about this option.

COURSE ID

SF-SERV-TR-IMM

DURATION

2 Days
